Khan Academy offers practice exercises, instructional videos, and a personalized learning dashboard that empower learners to study at their own pace in and outside of the classroom. We tackle math, science, computer programming, history, art history,

economics, and more. Our math missions guide learners from kindergarten to calculus using state-of-the-art, adaptive technology that identifies strengths and learning gaps. We've also partnered with institutions like NASA, The Museum of Modern Art, The California Academy of Sciences, and MIT to offer specialized content.

Saylor Academy offers nearly 100 full-length courses at college and professional levels, each of which is available right now — at your pace, on your schedule, and free of cost. Whether you're looking for career advancement, degree completion, professional development, or more casual learning, we have something just for you. At Saylor Academy, you can earn modern, digital certificates of completion to use individually or toward one of our diploma programs; earn tuition-free college credit through our network of partner schools; or even start a low-cost, convenient degree program.
