

Sonoma County Winter Shelters

Open November 2018-March 2019

From November 19, 2018, to March 31, 2019, seven nonprofit organizations will team up to expand and create winter shelter services across Sonoma County. This effort will support unsheltered persons to find relief from cold and wet weather. Up to a total of 282 Winter Shelter beds will be provided on a first-come, first-served basis, and some locations may have additional offerings to facilitate entry into year-round shelters and programs that enable permanent housing solutions.
